

The handball goal, aluminium with dimensions 3x2m with IHF, EHF certificate

Description

The handball goal, aluminium with dimensions 3x2m with IHF and EHF certificate.

Goals made of 80x80mm aluminum profile, in accordance with IHF and EHF standards and international demands.. Products intended for playing handball but also traditionally used for recreational playing football or indoor soccer.

The goal using a new method of joining profiles are bolted in the corners with a special steel angle.

Goals are extremely durable and thanks to the high quality of anodized aluminum profile, it is possible to transport or fix permanently. The goal is painted in RAL stripes: blue, red, green, black and others on request.

All goals components are painted or hot dip galvanized. In addition, we invite you to buy mounting elements (sockets, pines and also floor/ground plates).

International standard. Certificate IHF (International Handball Federation) and EHF (European Handball Federation).
