

The floor frame with lid the gymnastic bar

Description

The floor frame with lid the gymnastic bar,

thanks to the frame, we protect the holes of the posts against damage and contamination with undesirable objects. It also allows the use of the sports hall for other disciplines when storing the gymnastic bars.

The frame is made of steel with a diameter of 130mm, galvanized. The lid is made of parallel-layer plywood, has a comfortable handle that makes it easy to remove from the floor.

It is possible to adapt the frame to the color, painted with cotine on the sports hall.
