

## Gymnastic straight vaulting box 6-pcs, natural leather

### Description

**Gymnastic straight vaulting box, 6 sections, covered with natural leather.** The elements (segments) of the box are made of parallelwood plywood (wall thickness approx. 18mm). The stability of the structure is provided by twisted corners made of solid beech wood. The whole is finished with ecological transparent varnish.

The upper segment of the gym box has a foam lining covered with natural leather, while the bottom one is equipped with non-slip, non-marking PVC feet.

Dimensions: length 145cm, width 45cm, height 110cm. Weight about 90kg.
