

## Gymnastic bench, length 2m with steel legs

### Description

**Gymnastic bench with length 2m, steel legs.** The bench made of coniferous or hardwood, steel legs. Steel brackets connecting bench elements stiffen its construction ensuring stability and operational safety. All edges of the board, beams and legs are rounded. The bench has a permanent hook allowing hanging on a ladder or in the vaulting box. After turning - a bench beam 10cm wide can serve as a balance beam.

Dimensions: height 310mm, width 240mm, width of metal legs 310mm. The bench is covered with transparent ecological varnish.
