

The football goal with dimensions 5x2m, portable "ssMobile5"

Description

Professional football goal, aluminum "ssMobile5", portable with wheels, dimensions 5x2m, accordance with FIFA regulations

The goal is equipped with a system of wheels (4 pieces) folded and unfolded for use or storage. Goal in basic version anodized, with extra charge can be painted in white - RAL 9016, using the powder method. The main frame of the goal is fastened in the corner with a special connector that stabilizes the structure and allows the goals to be transported anywhere in a folded form (easier to transport).

Thanks to the reinforced profile of the profile, their use is for many years, without changing the shape or discoloration or losing the connecting elements. It is a compact structure designed for all pitches and stadiums in every league, from class to league.

Goals adapted to the net with depth: 100x120cm; 100x150cm; 100x200cm

The set of goal includes:

- 1 piece of professional goal with wheels,
- a set of fasteners, including screws and cubes.
- A set of bottom frames is a net stabilization.

The whole set allows you to prepare and use the goal for its intended purpose. Due to the fact that the goals have a modern transport system and are new on our market, they are produced only to order.

The set does not include the net. The goal according to PN - EN standards (with producer certificate) and FIFA standards.
