

Gymnastic bench, length 2,5m with wood legs

Description

Gymnastic bench with length 2,5m, wooden legs. The bench made of coniferous or hardwood, steel legs. Steel brackets connecting bench elements stiffen its construction ensuring stability and operational safety. All edges of the board, beams and legs are rounded. The bench has a permanent hook allowing hanging on a ladder or in the vaulting box. After turning - a bench beam 10cm wide can serve as a balance beam.

Dimensions: height 310mm, width 220mm. The bench is covered with transparent ecological varnish.
