

The volleyball posts wall mounted

Description

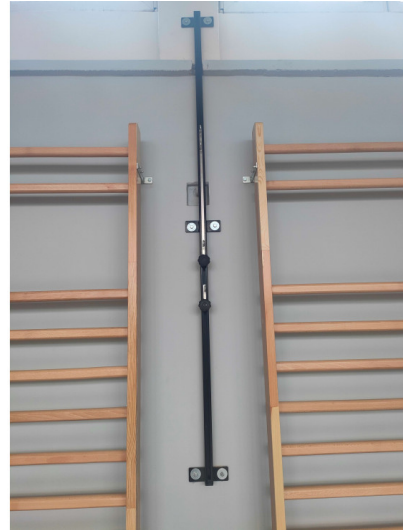

A set of steel wall rails for volleyball activity

The rails are used in schools up to a width of about 15m, where the assembly of sockets for volleyball posts is not possible due to the size of the sports hall.

Steel rails made of steel profile, powder coated. The structure is anchored directly to the wall. Equipped with a smooth height adjustment mechanism (the possibility of playing badminton or tennis).

Posts colors according to the standard RAL palette available on request. Standard blue color.

The volleyball set includes 2 rails (one rail with a tensioning system, the other with a hitch, both with smooth height adjustment) and mounting elements.
