

Locker room bench with hooks

Description

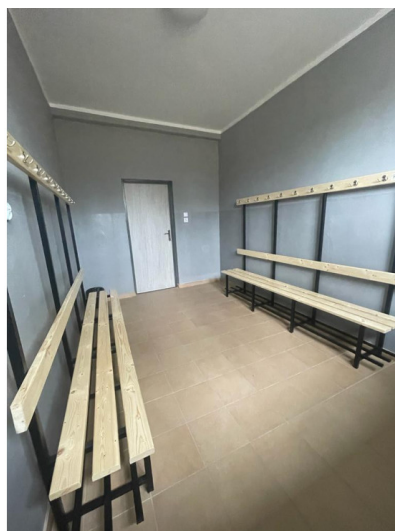

Locker room bench with hooks.

A coat rack for locker rooms, schools, sports clubs, and other places where you can sit and change. A robust and stable structure for public use.

The bench structure is made of powder-coated steel profiles, painted according to the RAL palette – black (RAL 9005) as standard, with other colors available upon request. The bench structure is finished with spruce wooden slats, painted and sealed with several coats of wood varnish – class AB. An additional steel shoe shelf is included. The coat racks are always made to order, with a maximum length of 300 cm and a minimum length of 70 cm. We use a 5 cm rule for lengths, meaning 125 cm or 285 cm are possible. Due to the hand-made nature of the product, a slight deviation of a few mm is permitted.

The structure is shipped from our warehouse complete and ready for use, secured for transport. Transport is usually dedicated, without unloading, directly to the recipient. The product comes with full quality documentation and is approved for use in public facilities.
