

## The gymnastic bar, wall-mounted

### Description

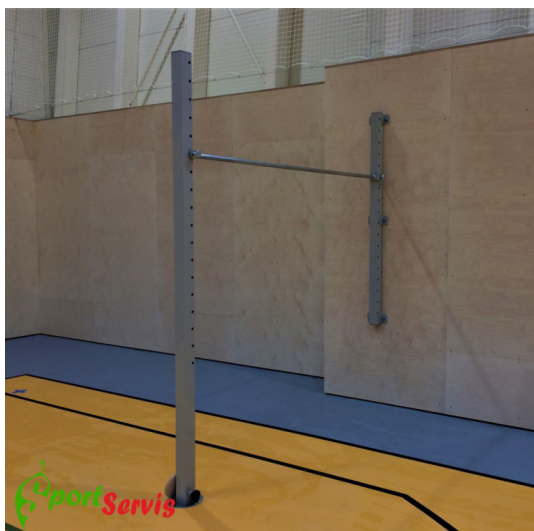

**The gymnastic bar, floor - mounted, 1-training field, adjustable crossbar height every 10cm.**

The posts are mounted in the floor sockets. The posts have a special lock in the socket by manually tightening the clamping mechanisms. The posts have height adjustment in the range of 80-250cm.

The 1-pole gymnastic bar set consists of: 2 posts (80x80mm square tube), gymnastic bar (Ø30 towed bar) and mounting sockets (90x90mm square tube) with floor frame and floor covering.

The posts are powder coating painted, according to the RAL palette (you can choose the color of the posts).

The proper functioning of the rod requires the installation the socket, a cover masking the surface, products in the store's offer as a separate product.
