

The basketball backboard 90 x 120cm, training epoxide board

Description

The basketball backboard with dimensions 90x120cm, training made of an epoxide board

A backboard designed for basketball, used on indoor facilities (gyms and sports halls) and outdoor facilities. The board made of epoxide resing (in accordance with FIBA requirements), additionally protected against vibrations, making it durable against mechanical damage and external conditions.

The backboard top is mounted on a steel frame, which is galvanized or painted (depending on the purpose), in a non-hole system.

The backboard covered in black and white lines, dimensions: 90x120x18cm
